

CUMMINS CLEAN FUEL TECHNOLOGIES FUEL SYSTEM INSTALLATION PROFESSIONAL (CNG-CFSI)

1. CCFT CNG Safety Awareness Training
 - Introduction to CNG
 - Properties of CNG
 - CNG Safety
 - Tech Safety Tips
 - Facility Requirements
 - Codes, Standards and Regulation
 - Depressurizing Yellow Lines
 - Defueling Red Lines

2. CCFT Operators Training
 - Pre-Trip Inspection
 - Troubleshooting
 - Fueling Safety
 - Emergency Response
 - Safe Towing Practices
 - Post Trip Inspections

3. CCFT Fuel System Troubleshooting
 - Electrical Troubleshooting
 - Wiring Harness Troubleshooting
 - Mechanical Components Troubleshooting
 - Fitting and Tube Leak Troubleshooting
 - Regulator Troubleshooting
 - Safety Interlock Troubleshooting

4. CCFT Fuel System Installation Training
 - Installation Requirements, Codes, and Standards
 - Installation of Fuel System, tubing, vent system, and electrical
 - Fitting Installation and Tube Bending
 - System Fueling, Leak Testing, and Inspecting

5. CCFT Fuel System Maintenance and Services Training
 - Inspection and Leak Testing
 - Fitting and O-ring Installation
 - Component Replacement
 - Regulator Pressure Adjustment
 - Regulator Replacement
 - Electrical Component Replacement
 - PRD and Vent System Inspection and Repairs
